

**TO PROTECT  
AND SERVE**

**EVERY DAY, AMERICA'S LAW ENFORCEMENT OFFICERS FULFILL THEIR SOLEMN OATH TO PROTECT OUR COMMUNITIES AND SERVE OUR CITIZENS.**

However, their job becomes much harder if Congress passes laws allowing the importation of medications. We've trained over 1,200 law enforcement officers on the dangers of exposure to fentanyl and counterfeit opioids made with it. As Former FBI Director Louis Freeh wrote in a recent report, such an importation policy will worsen the opioid crisis and threaten public health.
