

**Canadian drug importation does not work.
Canada is just too small a country and
doesn't make most of its own medicine.**

HOW DOES THE POPULATION OF THESE STATES STACK UP TO CANADA'S?

The number of U.S. residents in states that are pursuing drug importation is almost four times the size of Canada's population.

Canadian drug importation is not the structural solution we need. To tell your elected officials to find something better, go to <https://safedr.ug/takeaction>.
