IN THE UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF OHIO EASTERN DIVISION

| UNITED STATES OF AMERICA, |) CASE NO.: 1:13MJ8013 | | |
|---------------------------|--|--|--|
| Plaintiff, |) MAGISTRATE JUDGE NANCY A) VECCHIARELLI | | |
| V. |) | | |
| TIMMAPPA BIDARI, |)) GOVERNMENT'S SENTENCING | | |
| IIWWAFFA BIDAKI, |) <u>MEMORANDUM</u> | | |
| Defendant. |) | | |

The Government respectfully requests that the Court sentence Defendant Dr. Timmappa Bidari ("Bidari") within the advisory guidelines range (Level 4 after Acceptance of Responsibility) and not award restitution given the existence of a fully paid civil settlement agreement between Defendant and the United States. The United States here concentrates on the nature, circumstances and seriousness of the offense. 18 U.S.C. § 3353(a)(1).

I. THE NATURE, CIRCUMSTANCES, AND SERIOUSNESS OF THE OFFENSE

A. Offense Conduct and Investigation

FDA agents developed evidence that Defendant Bidari purchased and received a total of forty-three (43) shipments containing 12 injections/units of Zometa, five (5) vials of Taxotere, 25 vials of Gemzar and one (1) injection/unit of Novantrone from Company #1

between November 2005 and February 2007, for which he paid a total of \$70,131. As a result of this information, FDA agents visited Dr. Bidari's office on March 11, 2009.

Dr. Bidari consented to an interview, during which he admitted that he had purchased prescription oncology drugs from Company #1, a Canadian supplier. He admitted that he ordered from the Canadian supplier because it was cheaper than U.S. suppliers. Dr. Bidari claimed that he lost between 5 and 30% of his billing because patients could not afford to pay his bills, and thus the savings from the Canadian purchases helped to sustain his medical practice. According to the Government's investigation, by way of example, two of the drugs charged in the Information were significantly cheaper when ordered from Company #1 in Canada:

| Drug | Company #1 (Canada) | U.S. Supplier #1 | U.S. Supplier #2 | Price Difference |
|----------------|---------------------|------------------|------------------|------------------|
| Gemzar 1 g | \$340.00 | \$699.67 | \$693.14 | \$353.14 |
| Zometa 4mg/5mL | \$595.00 | \$848.22 | \$833.76 | \$238.76 |

GEMZAR® (gemcitabine for injection) is a chemotherapy drug used to treat several types of cancer like breast cancer, lung cancer, pancreatic cancer, and ovarian cancer. ZOMETA® (zoledronic acid) 4 mg/5 mL Injection is a treatment for hypercalcemia of malignancy (HCM; a condition resulting in high calcium blood levels due to cancer) and is also used to reduce and delay bone complications due to multiple myeloma and bone metastases from solid tumors.²

Misbranding does not require the defendant to be aware that his/her actions are illegal, though it is worth noting that in May 2007 the FDA sent Dr. Bidari a notice indicating that a foreign drug shipment destined for his office had been detained by the FDA. The notice indicated that the importation appeared to be a violation of the law because it appeared to be a

See http://www.gemzar.com/Pages/index.aspx

See http://www.us.zometa.com

new drug without an approved new drug application. The letter though also included a statement that the notice "does not in any way accuse [the recipient] of violating the law." **Govt Exhibit 1**, reprinted copy of FDA Notice to Dr. Bidari. The notice stated that the packages had been shipped from Phillipsburg in the Netherland Antilles.

In terms of his use of the Canadian drugs, the Government did not develop any evidence concerning whether patients were informed that the drugs Defendant infused were purchased from a Canadian supplier. Given the nature of the arrangement and the explanations offered, a reasonable inference is that patients were not informed of the origin or the cost difference in the Canadian drugs. The Government also did not develop any evidence of patient harm from the Canadian drugs, nor did we learn of any evidence that the drugs were counterfeit.³

Dr. Bidari produced invoices he retained from Company #1 as well as purchase information from United States suppliers, which revealed the following approximate split between American and Canadian purchases:

| | 2009 | 2008 | 2007 | 2006 | 2005 | <u>Totals</u> |
|---------------------------|--------------|--------------|---------------|--------------|--------------|----------------|
| | | | | | | |
| McKesson Speciality Care | \$40,929.01 | \$170,510.85 | \$529,088.18 | \$935,542.94 | \$195,348.23 | \$1,871,419.21 |
| Oncology Supply | \$691,812.98 | \$322,206.27 | \$4,385.66 | -\$52.31 | \$33,615.85 | \$1,051,968.45 |
| | | | | | | |
| Totals for U.S. Suppliers | \$732,741.99 | \$492,717.12 | \$533,473.84 | \$935,490.63 | \$228,964.08 | \$2,923,387.66 |
| | | | | | | |
| Canadian Purchases | | \$ 71,619.00 | \$ 115,181.00 | \$ 23,282.00 | \$ 22,609.20 | \$232,691.20 |

This documentation showed that Dr. Bidari purchased the following drugs from Company #1: Taxotere, Gemzar, Oxaliplatin, Eloxatin, Irinotecan, Campto, Mitoxantrone, Hycamtin, Zometa, Procytox, Topotecan and Fluororacil.

Since this was a historical case at the point that FDA agents interviewed Dr. Bidari and he did not have any imported Canadian drugs on hand during the interview, the Government did not have a way to conduct any testing to determine whether the Canadian drugs contained what was purported by the packaging.

B. Seriousness of the Offense

Understanding federal law regarding the importation of drugs is critical to appreciating the nature and seriousness of this offense. The Eighth Circuit Court of Appeals in *In re Canadian Import Antitrust Litigation*, 470 F.3d 785, 790-91 (8th Cir. 2006), held that imported drugs with the same chemical composition as FDA-approved drugs are illegal and misbranded because they are manufactured outside the United Sates' closed system of drug distribution that protects consumers from potentially unsafe pharmaceuticals:

The [Food, Drug, and Cosmetic Act] comprehensively regulates the manufacture, importation, and sale of prescription drugs. Before a new drug may be introduced into interstate commerce, the FDA must approve the manufacturing process, labeling, and packaging. 21 U.S.C. § 355(b)(1). The approval process addresses the chemical composition of the drug, id. § 355(b)(1)(B), (c), the drug's safety and effectiveness, id. § 355(b)(1)(A), and elements of the drug's distribution, such as "the methods used in, and the facilities and controls used for, the manufacture, processing, and packing" of the drug, id. § 355(b)(1)(D), and the "labeling proposed to be used" for the drug. Id. § 355(b)(1)(F). The approval process is specific to each manufacturer and each product. See 21 C.F.R. § 314.50.

Drugs that are manufactured and distributed in Canada are not approved pursuant to this statutory framework. The approval process requires, among other things, that a manufacturer provide "the proposed text of the labeling for the drug." 21 C.F.R. § 314.50(c). Because foreign labeling differs from domestic labeling, approval granted to a particular manufacturer for a particular product to be distributed in the United States does not constitute approval of another drugeven one with the same chemical composition-to be distributed in Canada with different labeling, and then imported into the United States.

As discussed above, any drug manufacturer must prove to the FDA that each drug it markets to U.S. consumers is properly manufactured and distributed and therefore safe and effective *before* the drug can be legally sold in the United States. No one can legally "roll the dice" by providing U.S. consumers with drugs that have not first been proven to be safe with the FDA, even if the unapproved drugs end up being chemically similar to other approved drugs.

As the Eighth Circuit found in the *Canadian Import Antitrust Litigation* case at 470 F.3d at 790-91, importing foreign drugs of unknown pedigree is not a minor violation of federal law:

[Misbranding]... is not merely a "hyper-technical" violation of the FFDCA. It is, rather, a manifestation of a congressional plan to create a "closed system" designed to guarantee safe and effective drugs for consumers in the United States. Vermont v. Leavitt, 405 F.Supp.2d 466, 472 (D.Vt.2005). Drugs that are not properly labeled for sale under federal law sometimes may be similar in substance to those that are sold legally within the United States. In other cases, however, they may be drugs with chemical compositions that are not yet approved by the FDA, drugs not manufactured in accordance with FDA rules, or drugs not transported or stored in a manner that is deemed safe by the FDA. ... [T]he labeling requirements cannot be segregated from other FFDCA requirements in this way. Instead, they work in conjunction with the other statutory standards and FDA regulations to create a system that excludes noncompliant and potentially unsafe pharmaceuticals. This "closed system" ensures that approved prescription drugs are "subject to FDA oversight" and are "continuously under the custody of a U.S. manufacturer or authorized distributor," thus helping to ensure that the quality of drugs used by American consumers is consistent and predictable.

United States v. Rx Depot, Inc., 290 F.Supp.2d 1238, 1241-42 (N.D.Okla. 2003).

C. No Need for Restitution

Given the existence of a separate civil settlement with the Civil Division of the United States Attorney's Office, the United States is not seeking an award of restitution in this case. Dr. Bidari agreed to a civil settlement payment to the United States covering false claims involving federal payors. On October 31, 2013, Dr. Bidari made full payment to the United States of double damages in the amount of \$158,418.

II. DEFENDANTS CHARGED WITH SIMILAR CONDUCT

The Sentencing Guidelines also provide that this Court should consider the "need to avoid unwarranted sentence disparities among defendants with similar records who have been found guilty of similar conduct." 18 U.S.C. § 3553(a)(6). As of this filing, one other similarly situated defendant has been sentenced to one year of probation with no fine and no restitution.

The United States provides the following information regarding all seven oncologists charged with the same offense on the same day as the instant case:

| Defendant | Case No. | Magistrate Judge | Drugs Involved | Criminal Case Status |
|-------------------------|------------|--------------------------|---|--|
| Ranjan Bhandari | 4:13MJ8017 | Kathleen B. Burke | Zometa, Irinotecan, Eloxatin, Gemzar, Hycamtin, and Taxotere | Sentencing 12/3/13 |
| Poornanand Palaparty | 1:13MJ8014 | Kenneth S. McHargh | Kytril, Gemzar, Oxaliplatin, Irinotecan, Camptosar, Zometa, Gemcitabine, Campto, Zoledronic Acid and Carboplatin | Sentencing 11/12/13 |
| Timmappa Bidari | 1:13MJ8013 | Nancy A. Vecchiarelli | Taxotere, Gemzar, Oxaliplatin, Eloxatin, Irinotecan, Campto, Mitoxantrone, Hycamtin, Zometa, Procytox, Topotecan and Fluororacil | Sentencing 11/13/13 |
| Su-Chiao Kuo | 1:13MJ8012 | William H. Baughman, Jr. | Taxotere, Gemzar, Eloxatin, Campto, Zometa, Kytril | Guilty plea entered 9/25/13. Abbreviated PSR ordered, then Court and parties to decide whether full PSR needed. |
| Marwan Massouh | 1:13MJ8015 | Kenneth S. McHargh | Zometa and Gemzar | Sentenced 10/16/13. Found to be Offense Level 4, Criminal History Category I; Sentenced to 1 year probation; no fine; no restitution owed |
| David Fishman | 1:13MJ8016 | Greg White | Taxotere, Gemzar, Eloxatin, Irinotecan, Campto, Mitoxantrone, Hycamtin, Zometa, Camptosar, Kytril and Ondansetron | Sentencing 11/19/13 |
| Hassan Tahsildar | 1:13MJ8016 | Greg White | Taxotere, Gemzar, Eloxatin, Irinotecan, Campto, Mitoxantrone, Hycamtin, Zometa, Camptosar, Kytril and Ondansetron | Sentencing 1/28/14 |

III. CONCLUSION

The Government respectfully requests that the Court sentence Defendant within the suggested guidelines range and award no restitution given the existence of the civil settlement agreement between Defendant and the United States, and grant such other and further relief as the Court deems just and proper. Other relief could include imposition of a fine. As a technical matter, the statutory maximum fine pursuant to 18 U.S.C. § 3571(b)(5) is \$100,000 for this Class A misdemeanor. The Sentencing Guidelines, which focus on the offense level, recommend a \$5,000 maximum. U.S.S.G. § 5E1.2(c)(3) (recommending a minimum fine of \$250 and a maximum fine of \$5,000 for individuals whose sentencing range is either Level 4 or 5; the United States agrees that Defendant is a Level 4 after acceptance of responsibility). The United

States leaves it to the Court to determine, given the facts surrounding the offense conduct (§ 5E1.2(d)(1)), the amount of the civil settlement (§ 5E1.2(d)(4) and (5)), and Probation's report regarding Defendant's assets, income and expenses (§ 5E1.2(d)(2) and (3)), whether a fine is appropriate and, if so, how much to impose.

Respectfully submitted,

STEVEN M. DETTELBACH United States Attorney
