

## Prescription Drugs States Seek to Import from Canada

### Purpose

This is a living document maintained by the Partnership for Safe Medicines (PSM). Within it, you will find a collection of all the drug lists from known drug importation applications (SIPs), including previous versions superseded by subsequent filings.

In 2003, the Medicare Modernization Act included a provision to allow states to import prescription drugs from Canada as long as doing so would not endanger patients and that it would give significant savings to the American consumer. A federal rule was not finalized until 2020. [That finalized rule can be seen here](#) and it governs the requirements of any state's application to the FDA to operate a program to import medicine from Canada. As part of a Section 804 program application, a state needs to provide a list of drugs they seek to import.

### Methods

The drug lists were collected in one of three ways:

1. A state publicly published the SIP application containing the drug list
2. PSM obtained the information through a Freedom of Information Act (FOIA) request
3. The information was obtained from public evidence from ongoing litigation.

### Notes

As of January 29, 2024, legislators in Colorado, Connecticut, Florida, Maine, New Hampshire, New Mexico, Texas, and Vermont have drafted applications though not all to the same level of detail. To the best of PSM's knowledge, **Connecticut, Maine, Texas, and Vermont** have not submitted drug lists. If/when a state does, that information will be included in this document.

SIP applications included in this document are:

Colorado: [February 2024](#)<sup>1</sup>, [December 2022](#), and [March 2020](#)

Florida: [November 2023](#)<sup>2</sup>, [October 2023](#), [April 2023](#), [November 2021](#), [September 2021](#), [April 2021](#), and [November 2020](#).

New Hampshire: [April 2021](#)

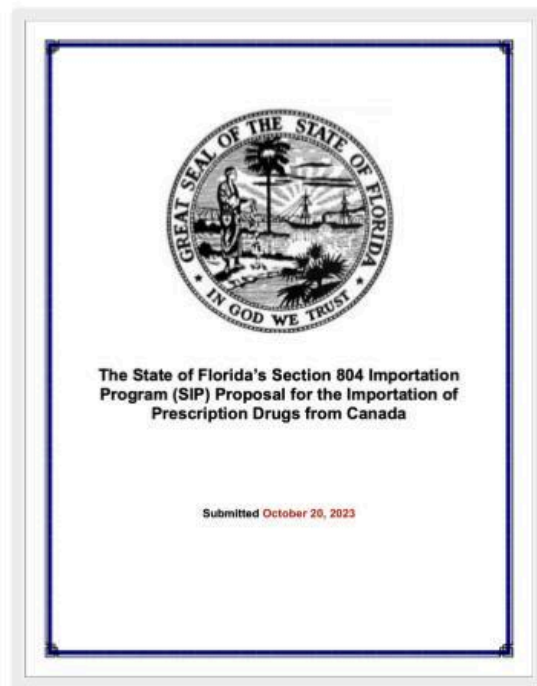

New Mexico: [December 2020](#) and [October 2020](#)

This is a living document that PSM will maintain that collects all drug lists from all known importation applications, including previous versions superseded by subsequent filings

---

<sup>1</sup> Information from this SIP application was added as part of the February 27, 2024 update

<sup>2</sup> Information from this SIP application was added as part of the April 15, 2024 update.

The following drugs were submitted as part of Florida's SIP application dated November 16, 2023.

Biktarvy	Descovy	Dovato	Genvoya
Juluca	Odefsey	Prezcobix	Prezista
Ravicti	Rexulti	Symtuza	Tivicay
Vraylar	Xtandi		

On the next 2 pages, we have included the original 2 page PDF from Florida's November 16, 2023 application. Please note: the state of Florida indicated revisions or additions to the text of its SIP by displaying those words in red.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import.
- Information of the applicant that holds the New Drug Applications (NDA) or Abbreviated New Drug Applications (ANDA).
- Name and address of the manufacturer of the finished dosage form.
- Names and addresses of manufacturers of the prescription drugs and active ingredients.

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. The final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. At the time of this submission, the State does not know the addresses of the manufacturers' facilities that produce the finished dosage forms or active ingredients.

Florida has chosen a limited set of drugs that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The list of proposed drugs for this SIP is in **Table 1**, Proposed Drug List, below. Full information regarding each drug as listed in the above bullets and the proposed labels can be found in **Attachment D**, Wholesale Importation Drug List. The State will import only the strengths and dosage forms that are listed below.

<b>TABLE 1*</b> <b>PROPOSED DRUG LIST</b>	
<b>Brand Name (active ingredients)</b>	<b>Dose / Dosage Form</b>
Biktarvy (bictegravir-emtricitabine-tenofovir alafenamide)	50-200-25 mg tablet <i>30-120-15 mg tablets will not be imported.</i>
Descovy (emtricitabine-tenofovir alafenamide)	200-25 mg tablet <i>120/15 mg tablets will not be imported.</i>
Dovato (dolutegravir-lamivudine)	50-300 mg tablet
Genvoya (elvitegravir-cobicistat-emtricitabine-tenofovir alafenamide)	150-150-200-10 mg tablet
Juluca (dolutegravir-rilpivirine)	50-25 mg tablet
Odefsey (emtricitabine-rilpivirine-tenofovir alafenamide)	200-25-25 mg tablet
Prezcobix (darunavir-cobicistat)	150-800 mg tablet
Prezista (darunavir)	<i>75 mg tablets will not be imported.</i> 150 mg tablet 600 mg tablet 800 mg tablet <i>100mg/ml suspension will not be imported.</i>
Ravicti (glycerol phenylbutyrate)	1.1 g/mL oral liquid
Rexulti (brexpiprazole)	0.25 mg tablet 0.5 mg tablet 1 mg tablet

**Attachment D: Wholesale Importation Drug List**

Update 10/20/23

Updated April 15, 2024

This attachment incorporates by file a document for each drug identified below. For each drug, the Agency intends to import all strengths and dosage forms listed on the cover sheet. The Agency does not intend to import any approved dosage form or strength combination not listed on the cover sheets. Each file contains:

- **A drug label cover sheet** providing each eligible prescription drug's FDA-approved counterpart, the manufacturer(s) of the finished dosage form and the active ingredient or ingredients of each eligible prescription drug that the SIP Sponsor seeks to import, the legal relationship of these entities to the SIP Sponsor, and information about the HPFB-approved product and its FDA-approved counterpart. Unless otherwise specified, information on each of the cover sheets, including proprietary/brand names, active ingredients, inactive ingredients, and dosage forms, are identical for both HPFB- and FDA-approved products and will not be listed separately. Ingredient names referring to the same chemical entity may be different between HPFB-approved monographs and FDA-approved labels. A list of such entities will be provided at the end of this document.
- **The proposed label and side-by-side comparison** of proposed label to FDA-approved drug label, including the Prescribing Information, carton and container labeling, and patient labeling (e.g., Medication Guide, Instructions for Use, patient package inserts), with all differences annotated and explained.
- **The proposed package insert.**
- **The FDA-approved package insert.**
- **The HPFB-approved package insert.**
- **Marketing Status in the United States.**

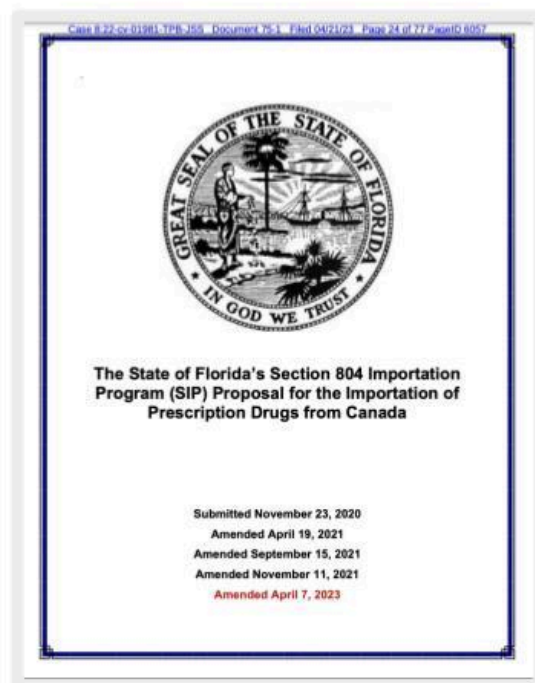

**Drug Name**

Biktarvy	Descovy	Dovato
Genvoya	Juluca	Odefsey
Prezcobix	Prezista	Ravicti
Rexulti	Symtuza	Tivicay
Vraylar	Xtandi	

**Interchangeable chemical names:**

Each row represents all listed names for the same chemical entity separated by semicolon.

- Tenofovir alafenamide fumarate; Tenofovir alafenamide hemifumarate
- Macrogol, PEG; Polyethylene glycol
- Sunset yellow FCF aluminum lake; FD&C Yellow No. 6
- Ferric oxide; Iron oxide
- HCl; Hydrochloride
- Caprylocaproyl macroglycerides, Caprylocaproyl polyoxylglycerides
- Glycerol; Glycerin

The following drugs were submitted as part of Florida's SIP application dated April 7, 2023.

Biktarvy	Descovy	Dovato	Eliquis
Entresto	Eucrisa	Genoya	Juluca
Odefsey	Prezcobix	Prezista	Ravicti
Rexulti	Symtuza	Tivicay	Vraylar
Xtandi			

On the next two pages, we have included the original two-page PDF from Florida's April 7, 2023 application. Please note: the state of Florida indicated revisions or additions to the text of its SIP from previously submitted versions by displaying those words in red.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import.
- Information of the applicant that holds the New Drug Applications (NDA) or Abbreviated New Drug Applications (ANDA).
- Name and address of the manufacturer of the finished dosage form.
- Names and addresses of manufacturers of the prescription drugs and active ingredients.

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. The final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. At the time of this submission, the State does not know the addresses of the manufacturers' facilities that produce the finished dosage forms or active ingredients.

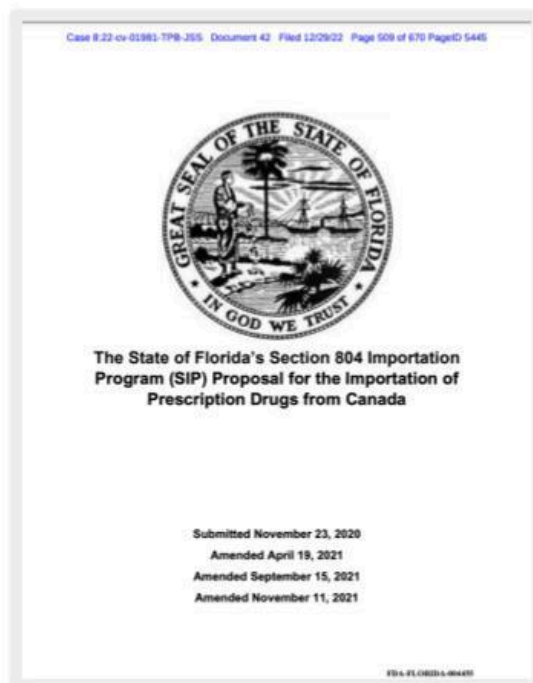

Florida has chosen a limited set of drugs that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The list of proposed drugs for this SIP is in **Table 2, Proposed Drug List**, below. Full information regarding each drug as listed in the above bullets and the proposed labels can be found in **Attachment D, Wholesale Importation Drug List**. The State will import only the strengths and dosage forms that are listed in the SIP Proposal.

<b>TABLE 2 PROPOSED DRUG LIST</b>	
<b>Brand Name (active ingredients)</b>	<b>Dose / Dosage Form</b>
Biktarvy (bictegravir-emtricitabine-tenofovir alafenamide)	50-200-25 mg tablet
Descovy (emtricitabine-tenofovir alafenamide)	200-25 mg tablet
Dovato (dolutegravir-lamivudine)	50-300 mg tablet
Eliquis (apixaban)	2.5 mg tablet 5 mg tablet
Entresto (sacubitril-valsartan)	24-26 mg tablet 49-51 mg tablet 97-103 mg tablet
Eucrisa (crisaborole)	0.02 topical ointment
Genvoya (elvitegravir-cobicistat-emtricitabine-tenofovir alafenamide)	150-150-200-10 mg tablet
Juluca (dolutegravir-rilpivirine)	50-25 mg tablet
Odefsey (emtricitabine-rilpivirine-tenofovir alafenamide)	200-25-25 mg tablet
Prezcobix (darunavir-cobicistat)	150-800 mg tablet
Prezista (darunavir)	150 mg tablet 600 mg tablet 800 mg tablet
Ravicti (glycerol phenylbutyrate)	1.1 g/mL oral liquid

Rexulti (brexpiprazole)	0.25 mg tablet 0.5 mg tablet 1 mg tablet 2 mg tablet 3 mg tablet 4 mg tablet
Symtuza (darunavir-cobicistat-emtricitabine-tenofovir alafenamide)	150-800-200-10 mg tablet
Tivicay (dolutegravir)	50 mg tablet
Vraylar (cariprazine)	1.5 mg capsule 3 mg capsule 4.5 mg capsule 6 mg capsule
Xtandi (enzalutamide)	40 mg capsule

The following drugs were submitted as part of Florida's SIP application dated November 11, 2021.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Farxiga	Tradjenta	Januvia
Spiriva Respimat	Combivent Respimat	Wixela	Incruse Ellipta
Kaletra	Genvoya	Complera	Stribild
Emtricitabine Tenofovir DF	Odefsey	Edurant	Intelence
Triumeq	Biktarvy	Isentress	Descovy
Juluca			

On the next four pages, we have included the original four-page listing from Florida's November 11, 2021 application. Please note: the state of Florida indicated revisions or additions to the text of its SIP by displaying those words highlighted in yellow.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. The final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The list of proposed drugs for this SIP is given below. Full information regarding each drug, including the proposed labels, can be found in Attachment D.

### Hepatitis C Prescription Drugs

The following drugs were submitted as part of Florida's SIP application dated September 15, 2021.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Zyprexa	Olanzapine	Seroquel
Quetiapine Fumarate	Clozaril	Clozapine	Abilify
Aripiprazole	Risperidone	Chlorpromazine	Fluphenazine
Metformin	Farxiga	Tradjenta	Januvia
Spiriva	Combivent Respimat	Advair Diskus	Fluticasone Propion, Salmeterol
Wikela	Atrovent HFA	Incruse Ellipta	Kaletra
Emtricitabine Tenofovir	Sustiva	Efavirenz	Genvoya
Atripla	Efavirenz, Emtricit, Tenofovir DF	Complera	Stribild
Truvada	Emtricitabine Tenofovir DF	Odefsey	Invirase
Edurant	Intelence	Triumeq	Juluca
Biktarvy	Isentress	Descovy	

On the next seven pages, we have included the original seven-page listing from Florida's September 15, 2021 application.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. Since the State has not finalized an agreement with a foreign seller and has not secured agreements from manufacturers, the final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The below chart outlines preliminary information necessary for these prescription drugs as it applies in both the U.S. and Canada.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.
Harvoni 90-400mg	Ledipasvir, Sofosbuvir	61958-1801-01	\$1,098.94	NDA205834	02432226	Harvoni	Yes
Epclusa 400-100mg	Sofosbuvir, Velpatavir	61958-2201-01	\$869.05	NDA208341	02456370	Epclusa	Yes

Source: PACER document  
April 19, 2021 FL SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Florida's SIP application dated April 19, 2021.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Zyprexa	Olanzapine	Seroquel
Quetiapine Fumarate	Clozaril	Clozapine	Abilify
Aripiprazole	Risperidone	Chlorpromazine	Fluphenazine
Metformin	Farxiga	Tradjenta	Januvia
Spiriva	Combivent Respimat	Advair Diskus	Fluticasone Propion, Salmeterol
Wikela	Atrovent HFA	Incruse Ellipta	Kaletra
Emtricitabine Tenofovir	Sustiva	Efavirenz	Genvoya
Atripla	Efavirenz, Emtricit, Tenofovir DF	Complera	Stribild
Truvada	Emtricitabine Tenofovir DF	Odefsey	Invirase
Edurant	Intelence	Triumeq	Juluca
Biktarvy	Isentress	Descovy	

On the next seven pages, we have included the original seven-page listing from Florida's April 19, 2021 application.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. Since the State has not finalized an agreement with a foreign seller and has not secured agreements from manufacturers, the final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The below chart outlines preliminary information necessary for these prescription drugs as it applies in both the U.S. and Canada.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.

November 23, 2020 FL SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Florida's SIP application dated November 23, 2020.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Zyprexa	Olanzapine	Seroquel
Quetiapine Fumarate	Clozaril	Clozapine	Abilify
Aripiprazole	Risperidone	Chlorpromazine	Fluphenazine
Metformin	Farxiga	Tradjenta	Januvia
Spiriva	Combivent Respimat	Advair Diskus	Fluticasone Propion, Salmeterol
Wikela	Atrovent HFA	Incruse Ellipta	Kaletra
Emtricitabine Tenofovir	Sustiva	Efavirenz	Genvoya
Atripla	Efavirenz, Emtricit, Tenofovir DF	Complera	Stribild
Truvada	Emtricitabine Tenofovir DF	Odefsey	Invirase
Edurant	Intelence	Triumeq	Juluca
Biktarvy	Isentress	Descovy	

On the next seven pages, we have included the original seven-page listing from Florida's November 23, 2020 application.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. Since the State has not finalized an agreement with a foreign seller and has not secured agreements from manufacturers, the final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The below chart outlines preliminary information necessary for these prescription drugs as it applies in both the U.S. and Canada.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.
Harvoni 90-400mg	Ledipasvir, Sofosbuvir	61958-1801-01	\$1,098.94	NDA205834	02432226	Harvoni	Yes

### Section 804 Importation Program

*Colorado's Drug Importation Program*

February 27, 2024

Original Submission: December 5, 2022

Amended February 27, 2024

Source: Publicly available document  
February 27, 2024 CO SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Colorado's SIP application dated February 27, 2024.

Bkitarvy	Eliquis	Erleada	Ibrance
Janumet	Januvia	Odefsey	Otezla
Ozempic	Prezcobix	Rinvoq	Spiriva Respimat
Sprycel	Symtuza	Tivicay	Trikafta
Triumeq	Victoza 3 PAK		

On the next page, we have included the original one-page listing from Colorado's February 27, 2024 application.

Figure 3: Final Drug List

Drug Index	Drug Name	Strength	Category	2027 Baseline Scenario Price per Unit	2027 Plan Scenario Importation Price per Unit	Savings Percentage
1	Biktarvy	50/200/25 mg 30/120/15 mg tablets will not be imported.	Specialty	\$118.28	\$55.81	53%
2	Eliquis	2.5 mg 5 mg tablets will not be imported.	Brand	\$7.20	\$3.74	48%
3	Erleada	60 mg 240 mg tablets will not be imported.	Brand	\$117.81	\$42.90	64%
4	Ibrance	75 mg	Specialty	\$521.99	\$258.54	50%
5	Ibrance	100 mg	Specialty	\$523.65	\$246.82	53%

Department of Health Care Policy & Financing, 2022.

### *Significant Savings*

This SIP meets Final Rule requirements to demonstrate significant cost savings, providing details on uncertainties that may influence our success. Colorado has requested flexibility from the FDA in the interpretation of significant savings given the need for state-led programs to begin with narrower lists of drugs and expand over time.

\*CIVHC data includes 100 percent of fully-insured and 65 percent of self-funded lives (according to CIVHC and other sources). In order to derive a cost savings estimate for the self-funded lives not included in CIVHC data, we assumed similar utilization rates to CIVHC claims but a lower cost per claim of 10% to account for the stronger negotiating power of larger self-funded employers.

\*CIVHC data includes 100 percent of fully-insured and 65 percent of self-funded lives (according to CIVHC and other sources). In order to derive a cost savings estimate for the self-funded lives not included in CIVHC data, we assumed similar utilization rates to CIVHC claims but a lower cost per claim of 10% to account for the stronger negotiating power of larger self-funded employers.

\*CIVHC data includes 100 percent of fully-insured and 65 percent of self-funded lives (according to CIVHC and other sources). In order to derive a cost savings estimate for the self-funded lives not included in CIVHC data, we assumed similar utilization rates to CIVHC claims but a lower cost per claim of 10% to account for the stronger negotiating power of larger self-funded employers.

## Colorado's Draft Importation Drug List

Drug Name	Strength	Indication	Candian Unit Cost with 45% Markup adjusted units	Colorado Unit Cost	APCD Units	Self Funded Units*	Total Utilization by Unit	Current CO Price (per total Utilization by Unit)	Importation Price	Total Annual Savings	Percent Savings

Application for Section 804  
Importation Program

New Hampshire Department of Health and Human Services

April 21, 2021

Source: Publicly available document  
April 21, 2021 NH SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of New Hampshire's SIP application dated April 21, 2021.

Abilify Maintena	Advair Diskus	Aubagio	Biktarvy
Breo Ellipta	Chantix	Eliquis	Epclusa
genvoya	Gilenya	Harvoi	Ibrance
Imbruvica	Ingrezza	Jakafi	Januvia
Jardiance	Kuvan	Latuda	Lupron
Mavyret	Myrbetiq	Odefsey	Otezla
Ozempic	Procysbi	Ravicti	Sabril
Spiriva Respimat	Sprycel	Tecfidera	Tradjenta
Triumeq	Truvada	Victoza	Vosevi
Wellbutrin XL	Wixela Inhub	Xarelto	Xifaxan
Xtandi			

On the next five pages, we have included the original five-page listing from New Hampshire's April 21, 2021 application. You can find a complete copy of this application's [SIPs documents here](#).

including purchasers and payers.

At any level in the supply chain where there is no market competition, the state can establish a limit on mark-up or fees for each stage of the supply chain. The allowed mark-up will account for the routine and exceptional costs of importing and distributing product throughout the state. The mark-up limits for the non-competitive parts of the supply chain will be enforced by payers and purchasers who will know the import price and the state margin limits. In order to ensure the significant savings from importing certain prescription drugs wholesale from Canada would be passed on to consumers, New Hampshire could amend its annual rate review filing requirements for health plans doing business in the state and require health plans to document savings from importation as well as how those savings were passed on to consumers.

Options for passing savings to consumers may include:

- Lowering premiums.
- Lowering deductibles, and
- Reducing or eliminating co-pays.

In addition to the rate review process described above, the New Hampshire would establish a transparent, public price list of the imported drugs in order to ensure that mark-up along the supply chain was not exceeding the allowed amount at the expense of consumer savings.

### Conclusion

Now more than ever, one of the biggest pressures on New Hampshire families' pocketbooks is the high cost of health care in the Granite State and prescription drugs are a driver of these health care costs. We look forward to the Administration's continued action to create a formal pathway for prescription drug importation from Canada and to its partnership with states on this important initiative.

LATUDA	LURASIDONE	02422020	SUNOVION PHARMACEUTICALS CANADA INC.	7025 Langer Drive, Suite 301 Mississauga, Ontario L5N 0B8	20 MG	TABLET	1	Lurasidone hydrochloride, croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® (D-threonine calcium salt), croscarmellose sodium, pregelatinized starch, 80 mg tablet also contains 0.56 mg Blue No. 2 Aluminum Lake and yellow ferric oxide.	LATUDA	LURASIDONE	63402-302-30	205023	Sunovion Pharmaceuticals, Inc. One Blue Bell Avenue Fort Lee, NJ 07024	Each tablet contains 20 mg of lurasidone hydrochloride. Inactive ingredients are croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® and croscarmellose sodium.
LATUDA	LURASIDONE	03877753	SUNOVION PHARMACEUTICALS CANADA INC.	7025 Langer Drive, Suite 301 Mississauga, Ontario L5N 0B8	40 MG	TABLET	1	Lurasidone hydrochloride, croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® (D-threonine calcium salt), croscarmellose sodium, pregelatinized starch, 80 mg tablet also contains 0.56 mg Blue No. 2 Aluminum Lake and yellow ferric oxide.	LATUDA	LURASIDONE	63402-304-30	205024	Sunovion Pharmaceuticals, Inc. One Blue Bell Avenue Fort Lee, NJ 07025	Each tablet contains 40 mg of lurasidone hydrochloride. Inactive ingredients are croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® and croscarmellose sodium.
LATUDA	LURASIDONE	02422025	SUNOVION PHARMACEUTICALS CANADA INC.	7025 Langer Drive, Suite 301 Mississauga, Ontario L5N 0B8	60 MG	TABLET	1	Lurasidone hydrochloride, croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® (D-threonine calcium salt), croscarmellose sodium, pregelatinized starch, 80 mg tablet also contains 0.56 mg Blue No. 2 Aluminum Lake and yellow ferric oxide.	LATUDA	LURASIDONE	63402-306-30	205025	Sunovion Pharmaceuticals, Inc. One Blue Bell Avenue Fort Lee, NJ 07026	Each tablet contains 60 mg of lurasidone hydrochloride. Inactive ingredients are croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® and croscarmellose sodium.
LATUDA	LURASIDONE	03877778	SUNOVION PHARMACEUTICALS CANADA INC.	7028 Langer Drive, Suite 301 Mississauga, Ontario L5N 0B8	80 MG	TABLET	1	Lurasidone hydrochloride, croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® (D-threonine calcium salt), croscarmellose sodium, pregelatinized starch, 80 mg tablet also contains 0.56 mg Blue No. 2 Aluminum Lake and yellow ferric oxide.	LATUDA	LURASIDONE	63402-308-30	205026	Sunovion Pharmaceuticals, Inc. One Blue Bell Avenue Fort Lee, NJ 07027	Each tablet contains 80 mg of lurasidone hydrochloride. Inactive ingredients are croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® and croscarmellose sodium.
VENTOLIN HFA	SALBUTAMOL HFA	02342497	GLAXOSMITHKLINE INC.	7333 Mississauga Road Mississauga, Ontario L5N 6L4	100 MCG / ACT	METERED-DOSE AEROSOL	1	Lurasidone hydrochloride, croscarmellose sodium, hypromellose, magnesium stearate, anhydrous, Opasyl® (D-threonine calcium salt), croscarmellose sodium, pregelatinized starch, 80 mg tablet also contains 0.56 mg Blue No. 2 Aluminum Lake and yellow ferric oxide.	VENTOLIN HFA	ALBUTEROL HFA	0373-0602-20	020683	GlaxoSmithKline 5 Moore Drive Maitland, N.S.B. Research Triangle Park, NC 27709	Active ingredient: albuterol sulfate Inactive ingredient: propellant HFA 134a
ANAVIR DISKUS	SALMETEROL AND FLUTICAZONE	02408386	GLAXOSMITHKLINE INC.	7333 Mississauga Road Mississauga, Ontario L5N 6L4	250/50	POWDER	2	250 mg Roflumazone propionate and 50 mg salmeterol (in the aerosol can)	ANAVIR DISKUS	SALMETEROL AND FLUTICAZONE	0173-0604-00	021077	GlaxoSmithKline P.O. Box 13398 Research Triangle Park, NC 27709	Active ingredients: Roflumazone propionate, salmeterol xinafoate Inactive ingredient: lactose monohydrate (contains vmb proteins)
CHANTIX	VARENICLINE	02291277	PFIZER CANADA LLC	17300 Triens Canada Highway Richmond, Quebec Canada H6S 2M5	0.5 MG	TABLET	1	Varenicline tartrate, anhydrous dibasic calcium phosphate, colloidal silicon dioxide, croscarmellose sodium, hypromellose, and microcrystalline cellulose. The film coating contains hypromellose, polyethylene glycol, titanium dioxide, polyethylene glycol, and iron oxide black. The 0.5 mg tablet also contains 0.56 mg Blue #2/Indigo Carmine Aluminum Lake as a coloring agent.	CHANTIX	CHANTIX	0569-0605-56	023258	PF Pfizer C.V. c/o Pfizer Inc. 235 East 42nd Street New York, NY 10017-2325	Each 0.5 mg CHANTIX tablet contains 0.85 mg of varenicline tartrate equivalent to 0.5 mg of varenicline free base, with 1 mg CHANTIX equivalent to 0.5 mg of varenicline free base. The following inactive ingredients are included in the tablets: microcrystalline cellulose, anhydrous dibasic calcium phosphate, croscarmellose sodium, hypromellose, polyethylene glycol, polyethylene glycol, and iron oxide black. CHANTIX® White (for 0.5 mg), CHANTIX® Blue (for 1 mg), and CHANTIX® Clear.
CHANTIX	VARENICLINE	02291285	PFIZER CANADA LLC	17300 Triens Canada Highway Richmond, Quebec Canada H6S 2M5	1 MG	TABLET	1	Varenicline tartrate, anhydrous dibasic calcium phosphate, colloidal silicon dioxide, croscarmellose sodium, hypromellose, and magnesium stearate, and titanium dioxide. The 1 mg tablet also contains 0.56 mg Blue #2/Indigo Carmine Aluminum Lake as a coloring agent.	CHANTIX	VARENICLINE	0609-0605-56	023258	PF Pfizer C.V. c/o Pfizer Inc. 235 East 42nd Street New York, NY 10017-2325	Each 0.5 mg CHANTIX tablet contains 0.85 mg of varenicline tartrate equivalent to 0.5 mg of varenicline free base, with 1 mg CHANTIX equivalent to 0.5 mg of varenicline free base. The following inactive ingredients are included in the tablets: microcrystalline cellulose, anhydrous dibasic calcium phosphate, croscarmellose sodium, hypromellose, polyethylene glycol, polyethylene glycol, and iron oxide black. CHANTIX® White (for 0.5 mg), CHANTIX® Blue (for 1 mg), and CHANTIX® Clear.
DESCOVY	EMTRICITABINE AND TENOFVIR ALAFENAMIDE	02454424	GLEAD SCIENCES CANADA INC.	600 6711 Mississauga Highway Mississauga, Ontario L5N 2W9	200/25 MG	TABLET	2	200 mg emtricitabine, 25 mg tenofovir disoproxil fumarate, and 25 mg alafenamide hydrochloride, croscarmellose sodium, and magnesium stearate. The grey tablets are film-coated with a white to off-white color. The film coating contains hypromellose, polyethylene glycol, titanium dioxide, polyethylene glycol, and iron oxide black. The blue tablets are film-coated with a blue to off-blue color. The film coating contains polyvinyl alcohol, titanium dioxide, polyethylene glycol, talc, and indigo carmine aluminum lake.	DESCOVY	EMTRICITABINE, TENOFVIR ALAFENAMIDE (TAMMANT)	61590-2002-21	208215	Gilead Sciences, Inc. 333 Lakeside Drive Foster City, CA 94404	Each 200/25 mg tablet contains 200 mg of emtricitabine (EFTC) and 25 mg of tenofovir disoproxil fumarate (TDF) and the following inactive ingredients: croscarmellose sodium, magnesium stearate, and polyethylene glycol. Each 200/25 mg tablet also contains indigo carmine aluminum lake, polyethylene glycol, polyvinyl alcohol, talc, and titanium dioxide.
