

ScoutRx is pleased to continue servicing Ripon Area School District as your pharmacy benefit provider. If you are new to the benefit, we are excited to welcome you! If you are already a member, we are happy to share that your copays are remaining the same for the 2024 plan year.

At ScoutRx, our United States based team of advocates prides itself on providing individual service to our members. You are our top priority.

There are small changes for the upcoming plan year. There is a new mail order vendor (see page 2 for more information), and you will be receiving a new ID card.

This card will be printed and shipped to you by Prairie States and will serve as both your medical and pharmacy benefits ID card. Please be sure that you present this ID card to your pharmacy.

To streamline contact information into one place, you will see QR codes like this one, that can be scanned using the camera on your phone to save our virtual business card to your contacts. Others shared in this packet will take you to useful plan information.

We look forward to supporting your pharmacy health needs, helping you get well and stay well.

Sincerely,

Your ScoutRx Team

## Ripon Area School District 2024 Schedule of Copays

|                                    |                      |                                |
|------------------------------------|----------------------|--------------------------------|
| 1-30 Days Mail Order or Retail     | Generic              | \$5.00                         |
|                                    | Preferred Brand      | \$30.00                        |
|                                    | Non- Preferred Brand | \$90.00                        |
| 84-93 Days Mail Order or Retail    | Generic              | \$12.50                        |
|                                    | Preferred Brand      | \$75.00                        |
|                                    | Non- Preferred Brand | \$225.00                       |
| International Mail Order           |                      | \$0 for qualifying medications |
| *ACA Preventative Care Medications |                      | \$0 for qualifying medications |

### Exclusions Include, but are not limited to:

- Prescriptions for a 31–83-day supply
- Cosmetic drugs
- OTC medications
- Anti-Obesity medications
- Growth hormones
- Fertility medications

\*Additional information on page 3

This is not a legal document. Prescription information included here does not guarantee coverage, nor is it a complete list of products and prescriptions that are included on your benefit. PLEASE NOTE: Brand name drugs may move to non-formulary stats if a generic version becomes available.

If you have any questions regarding your pharmacy benefits, please call or text ScoutRx at 833-233-1818, or email at [atp@scoutrxconsulting.com](mailto:atp@scoutrxconsulting.com).

# 90 DAY PRESCRIPTION PROGRAMS

## Can I still use my current mail order?

No. The new mail order pharmacy replaces your current mail order vendor. Prescription refills will not transfer to the new mail order pharmacy. Your new mail order vendor is Prescription Postal Services, A Kroger Family Pharmacy.

Scan the code here to view the enrollment form and portal registration guide. Questions on mail order and the member portal should be directed to PPS at 800-552-6694.

## Can I get a 90 day fill at my retail pharmacy?

Yes! You can get a 90-day fill at any participating pharmacy. Ask your clinician to prescribe a 90-day supply of your medication and send it to your retail pharmacy. You can pick up your medication at your convenience. You do not have to enroll in this program. Often, generic medications will be less expensive for you at retail than mail order.

## International Mail Order Pharmacy

As part of the pharmacy benefit coverage, qualifying members will be contacted with the opportunity to save money through our international mail order pharmacy. Located in British Columbia, Canada, this pharmacy is licensed to provide cross-border service to the United States. If you qualify for this program, you will be able to get up to a 90-day supply of your medication shipped directly to your door at no cost to you. **You do not need to do anything to take advantage of this benefit. You will be contacted by a ScoutRx representative if you are eligible.**

If you have any questions regarding your pharmacy benefits, please call or text ScoutRx at 833-233-1818, or email at [atp@scoutrxconsulting.com](mailto:atp@scoutrxconsulting.com).

# SPECIALTY MEDICATION PROGRAM

## ATTENTION SPECIALTY MEDICATION USERS!

If you are currently taking a specialty medication, or planning to begin treatment with a specialty medication, ScoutRx needs to hear from you to ensure that you receive the maximum savings and avoid any delay in therapy. Specialty medications include those used to treat MS, HIV, Hepatitis C, Crohn's Disease, and COPD to name a few.

*If you are being treated for these, or any other specialty condition, and you have not spoken to a ScoutRx representative yet, please contact ScoutRx.*

## FORMULARY ITEMS

### ACA Preventative Care Medications

Under the healthcare reform law, Affordable Care Act (ACA), pharmacy benefit plans must cover certain preventative care medications in full without charging a copay, co-insurance, or deductible.

These products include:

- U.S. Preventative Services Task Force recommended medications
- FDA-approved prescription and over the counter (OTC) contraceptives for women
- Vaccines available through a pharmacy

These preventative medications are covered as part of the ACA and are available at no member cost share with a valid prescription. Scan the QR code to view this on your phone.

If you have any questions regarding your pharmacy benefits, please call or text ScoutRx at 833-233-1818, or email at [atp@scoutrxconsulting.com](mailto:atp@scoutrxconsulting.com).

## Tiered Formulary

The ScoutRx tiered formulary references the most prescribed medications available to treat a variety of conditions. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription plan. The list is not all-inclusive and does not guarantee coverage. Deductible may apply.

In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate. Scan the QR code to view this on your phone.

## HELPFUL HINTS

If you encounter any of the following issues at the pharmacy, please confirm your new ScoutRx ID card billing information is being used.

- Your pharmacist says you are not covered
- Your pharmacist says your drug is not covered
- Your copay is higher than what your Summary Benefit Description outlines

If you still experience these issues, please contact us with your name and date of birth so we can investigate. Many times, there is a simple explanation, and the issue can be rectified quickly.

If you have any questions regarding your pharmacy benefits, please call or text ScoutRx at 833-233-1818, or email at [atp@scoutrxconsulting.com](mailto:atp@scoutrxconsulting.com).

The ScoutRx Core tiered formulary references the most commonly prescribed medications available to treat a variety of conditions. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

*PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all drugs listed may be covered by your prescription plan.*

*Tier associated with trade name below is subject to change based on medication strength, dosage form, and/or manufacturer.*

For the most current listing of covered medications or if you have questions, please visit [www.scoutrxconsulting.com](http://www.scoutrxconsulting.com).

## LEGEND

PM —HDHP Preventative Medication\*

SP —Specialty

QL —Quantity Limit

ST —Step Therapy

PA —Prior Authorization

\* Not all HDHP plans have elected to implement this list, please check your benefit to determine coverage.

## Tier 1 - Generic

# ACA Preventative Care Medications

Under the healthcare reform law Affordable Care Act (ACA), pharmacy benefit plans must cover certain preventative care medications in full without charging a copay, co-insurance, or deductible. These products include the medications listed. *Generic products are italicized.*

## SPECIALTY MEDICATION PROGRAM

### **ATTENTION SPECIALTY MEDICATION USERS!**

If you are currently taking a specialty medication, or planning to begin treatment with a specialty medication, ScoutRx needs to hear from you to ensure that you receive the maximum savings and avoid any delay in therapy. Specialty medications include those used to treat MS, HIV, Hepatitis C, Crohn's Disease, and COPD to name a few.

If you are being treated for these, or any other specialty condition, and you haven't spoken to a ScoutRx representative yet, please contact ScoutRx. If you have any questions regarding your pharmacy benefits, please call or text ScoutRx at 833-233- 1818, or email at [atp@scoutrxconsulting.com](mailto:atp@scoutrxconsulting.com).
